

Amendments to the Summary of the Invention

Please replace paragraph [0003] with the following amended paragraph:

[0003] ~~This~~ A new laminated glass messaging / signage device that
~~can assist~~ be used along or with other neon gas tubing sign and
other glass signs in the future. It can be installed when glass is
being manufactured to make window glass for any type of business
or homes. It will be installed on the inside of the first layer of
glass, covered by the second layer of glass with a wire connection
attach to glass. This new device could be made of an illuminate
film it will be activated by a microchip, ~~inverter or (?)~~ / program
chip and a keyboard to display manes different type of phrase and a
wire connection lamine inside of glass and powered by a power
outage. Using this device you can illuminate any letters and
numbers from inside or glass. The words open and close will

illuminate ~~between~~ inside window glass by using one of these
illuminate films. Just imagine, your home can be found easier by
an ambulance, fire department, patrol car, cab driver, repair person
and delivery person can depend on illuminate signs at day or night.
Businesses can ~~advertisement different phrase inside of windows~~
~~glass, using the illuminate film~~ input various advertisement
messages via with this device.

SUMMARY OF THE INVENTION

[0003] A new laminated glass messaging / signage device that can be used along or with other neon gas tubing sign and other glass signs in the future. It can be installed when glass is being manufactured to make window glass for any type of business or homes. It will be installed on the inside of the first layer of glass, covered by the second layer of glass with a wire connection attach to glass. This new device could be made of an illuminate film it will be activated by a microchip / program chip and a keyboard to display manes different type of phrase and a wire connection laminate inside of glass and powered by a power outage. Using this device you can illuminate any letters and numbers from inside or glass. The words open and close will illuminate inside window glass by using one of these illuminate films. Just imagine, your

home can be found easier by an ambulance, fire department, patrol car, cab driver, repair person and delivery person can depend on illuminate signs at day or night. Businesses can input various advertisement messages via with this device.
